

# YW SCATTERGORIES

Pick a letter or if you have a letter dice from an original 'Scattergories' game then use that and roll. Once a letter has been chosen tell the girls that there are 10 items on the list. They must think of an item that starts with the letter that was chosen for each phrase or description on the list. Earn one point for each correct answer as long as no one else has the same answer. Earn 2 points if you think of a two word answer where both words begin with the chosen letter: ex. Item in purse- Grape Gum (2 points)

At the end of each round add up how many points you earned. The person with the most points after both rounds WINS!
